XTREAM MEDIA AT CEDIA EXPO 2009 ATLANTA

☒ **Redlands, California 8/3/2009 4:00PM PT**

Xtream Media Servers will be exhibiting at the **CEDIA EXPO 2009** in Atlanta, Georgia September 9th through 13th. We will be exhibiting our finest product the Xtream PRO-8800. The XTREAM PRO-8800 is perfect for the true home theater enthusiast, allowing you to watch, store, and organize hundreds of standard DVDs and Blu-Ray DVDs. The media server also stores hundreds of CDs and has DVR functionality. A seven inch front panel touch display lets you control the media server with ease. When combined with an Xtream Media Extender, you can stream your movies and music collection to multiple rooms

About Xtream Media Servers

Xtream Media is a privately held company that is funded by its successful partners, investors, and prior clients. It continues to be independent and true to its original goals of innovation and technology through better design. The vision of the company is to logically combine device controls, digital media, and distribution into a seamless single system.
